 CITY CLERK  
 HONOLULU, HAWAII

My name is Jason Leue,

I am the owner of ailani gardens. Ailani gardens has been serving its community with organic produce since 2007. Anyone that knows how to grow real food knows how dangerous Gmo is because it threatens the very life that feeds the plants and the diversity that supports this life. I have been growing food for many years, I have a strong understanding of how natural systems support plants. Gmo goes against all principals of growing nutrient rich food.

Tulsi Gabbard and her HHC has made me appreciate how important Gmo labeling is. Food is very important. Gmo food is not safe for health, the environment or our economy. Gmo only benefits a small group of businesses. There is no nutritional benefits or finacial benefits to anyone else. The people that profit from Gmo know this and is why they don't want others to know about it. Anyone that cares about others should tell others about the facts on Gmo. Labeling is the best way to bring awareness to people from these poisons. Why don't Americans have the right to know about what's in there food?

committee=Council  
 Meeting Date=April 25, 2012  
 Subject=12-57  
 Name=Jason Leue  
 Representing=Self  
 Org. Name=  
 Phone No.=696-7616
